

## **Half term planner – Spring 2 2022**

**Focus;** Light room - TACPAC

**Day;** Thursday afternoon first session

**Group;** IU APH JB OE

**Staff;** MF

### **Objectives**

- To regulate and manage sensory needs.
- To improve sensory processing needs.
- To develop interactions with peers.
- To develop friendships.
- To develop an ability to express emotions.
- To improve attention and concentration skills.

The children will be encouraged to enjoy and respect the new resources in the light room, all the lights will be on, the wheel will be changed to add interest and music will be played to encourage calm and encourage the children to relax.

The children will have access to a variety of tactile resources and will be encouraged to share all the resources.
